Clark Forklift Parts

Clark Forklift Parts - Presently, there are at least 350,000 Clark forklifts performing globally, and upwards of 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual items intended for 20 distinctive brands of lift trucks and automated equipment. Your local Clark Supplier is your total source for availability of all your components requirements provided by Clark Totalift.

Clark features a exceptional Parts Supply team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional commitment to safety is now a standard feature on every lift truck.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the very economical and beneficial system of "Lean Production" for its assembly plants and use of resources. This structure was established to acknowledge the most successful method of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to develop the proficiency and excellence of their products while minimizing costs. The new value engineering agenda combines innovative product growth and delivers superior client support and service within the industry.
