

TCM Forklift Parts

TCM Forklift Part - In the international industry of material handling, lift trucks play a major role for transporting industrial goods. First innovated as industrial vehicles in the 1930s in the U.S., forklifts gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

Originally started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's very first lift truck. Throughout the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation in the business. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated technology and expertise, TCM has been proudly making several models of industrial trucks, making their models recognizable all around the world. With an energetic and strong workers, TCM has been able to continually work towards becoming a future leading material handling business.
